Report Authors: Robert Evans

The impact on children directly or indirectly affected by the effort will be:

Neutral

The effort will have a negligible effect on access to or protection of assets children need in order to prosper.

Evaluation

Evaluation of the stated concerns according to how they may affect children and families:

Resolution to approve a subdivision plat that does not require a public improvement contract.

Evaluation of the significance of the effort's concerns according to how important they may or may not be to children and families:

This is important to the owner in order for him/her to sell a legal lot in Shelby County.

Evaluation of the stated goals according to how they may measurably improve or worsen the conditions affecting children and families:

The owner will be able to sell the existing house on the newly created lot.

Evaluation of the action steps according to how they may create intended or unintended consequences affecting the well-being of children and families:

The new house buyer can close on the house they want to buy.

Evaluation of the effort according to the benefits and risks it poses for children and families:

This action will be a great benefit to the family buying the house. There will be no risks to children and families.
